Dear Ms. Haage:

This is in response to the 18 February 1988 letter from Mr. Jeff Zelikson, Director, Toxics & Waste Management Division, to Mr. C. Fred Fetterolf, President, Aluminum Company of America, regarding the Operating Industries Superfund site. The letter provides an update of activities at the site and demands payment of over \$15 million for work performed by EPA.

Alcoa is willing to contribute to remediation at the site and compensation to EPA for past costs if the allocation of costs among the parties is fair and equitable and provides for adequate releases from liability.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Gary Crouth', with a long, sweeping horizontal line extending to the right.

Gary Crouth
Staff Environmental Control Engineer
